

MetLife Shield Level SelectorSM

Renewal Rates: Effective 4/01/2021 through 06/30/2021

The Maximum Growth Opportunity (referred to as the "Cap Rate" in the Contract and Prospectus) and Step Rates accrue daily and reflect only the potential maximum interest over the entire 1-, 3-, or 6-year term. Rates shown are not annual rates. Any rates not labeled as Step Rates or Fixed Account Rates are Cap Rate/Maximum Growth Opportunity (MGO) Rates. **At the end of any term, all rates will reset based on then current rates.**

If positive index performance of the selected index at the end of a term is less than the Cap Rate/Maximum Growth Opportunity Rate shown, you will receive that lower rate. For the Step Rates, you will receive the rate reflected only if the index performance at the end of the term is equal to or greater than zero.

If there is negative index performance at the end of a term, MetLife will absorb the loss up to the level of protection for the Shield Option selected and your account value will be reduced by any negative performance beyond the level of protection. So if you do not elect the Fixed Account, you could conceivably see a risk of substantial loss if the index declines by more than your chosen level of protection.
